

# Why Commerce Parkway...

**Connection to Oldham County Businesses and Community Destinations:**

Commerce Parkway is a planned businesses park that the trail will provide direct access to. The Health Department, Lagrange Post Office, a forthcoming Oldham County Library and a proposed school will be accessed by the trail as well.

**Future Developments:**

Commerce Parkway will be home to several commercial, residential, and mixed use developments.

**Feasible Option:**

Oldham County owns 100 feet of Right-of-Way in which to build the trail. Minimal easement is needed.

**Bike and Pedestrian Area Connections:**

KY HWY 53, KY Hwy 393, and the New Moody/Allen Lane Overpass are being designed to include bike lanes; Commerce Parkway Trail would serve as a connector with these new projects.

**Park & TARC Facilities:**

Commerce Parkway is home to the successful TARC Park & Ride. The trail connection to these locations would serve as another alternative mode of transportation for Oldham County commuters.
